
PRION GmbH is now a global services partner of Siemens PLM Software

Leinfelden-Echterdingen, Germany – February 2, 2012 – PRION GmbH, a leading German-based global system integrator in the PLM and CAD business, announced an agreement with Siemens PLM Software, a business unit of the Siemens Industry Automation Division and leading global provider of Product Lifecycle Management (PLM) software and services, to help develop and implement PLM technology for customers globally.

PRION Group focuses exclusively on high-end PLM and CAD solutions in connection with Siemens PLM Software's technology. Since its establishment in 1998 its business model and worldwide skill setup has been aligned with Siemens PLM Software.

Since then Siemens PLM Software and PRION Group have developed a long proven track record of successfully engaging together in numerous complex projects. Both partners share the concept of creating customer value through business driven solutions on a high level of delivery excellence, quality and reliability. Joint engagements in customer projects smoothly follow standardized processes, resulting in seamless alignment and minimized risk and effort for the customer.

PRION Group's various complimentary offerings, e.g. data migration and long-term customer support, are highly synergetic contributions to many successful customer projects.

PRION Group as service partner is providing its customers with high-quality solutions in connection with the latest Siemens PLM Software technology.

"Becoming a global services partner of Siemens PLM Software is a strong affirmation of our durable partnership and another important milestone in our company development to become a world-market leading service provider alongside Siemens PLM Software", explained Dr. Joseph Unger, co-founder and managing partner of PRION Group.

About PRION:

PRION Group is a German-based global service integration partner of Siemens PLM Software, supporting multinational companies in optimising their product related business processes.

Established in 1998, PRION Group specialises in demanding PLM and CAD solutions, with a strong focus on the technology Siemens PLM Software: [Teamcenter® software](#), [NX™ software](#), [Tecnomatix® software](#).

PRION Group stands for business-driven and highly standardised solutions by mapping industry best practices to state-of-the-art PLM software. In many customer projects PRION acts as a one-stop-shop and serves customers at all of their worldwide locations.

Employing more than 300 experts (around 120 of whom speak German) in Germany, India, US, UK and China with offices in Stuttgart, Nuremberg, Zurich, Oxford, Portland, Bangalore, Pune and New Delhi, PRION Group is a full service provider from consulting, design, implementation, rollout to support.

Due to a strong presence in India, PRION Group can offer highly cost efficient, balanced on/offshore models for project execution and support/operations.

With a proven track record in key industries like automotive, transportation, aviation, general manufacturing, electronics and consumer goods, PRION Group's customer references include brands like Alstom, Audi, Bajaj, Daimler, Diehl Aircabin, EADS, Procter&Gamble, Siemens Industry, Sunseeker, Terex, VW and many others.

PRION Group is an independent privately owned organisation, certified according to ISO 9001 standards.
